2018 Design Awards

CALL FOR ENTRIES – 2018 Excellence in Sustainability Awards

AIANH is committed to excellence in sustainability and is pleased to add this new category to our design awards program. The purpose of this award is to recognize innovative strategies which advance sustainability in the built environment. Low or no energy demand, sustainable materials, healthy indoor air quality and advocacy should be at the forefront of the project which also exemplifies excellent architectural design.

There are two possible Honor Awards for Excellence in Sustainability, one each in the categories of: New Construction and Deep Energy Retrofit.
